

REVERCHON

a world of emotions

Spinning Coaster

The Spinning Coaster has been originally created by Reverchon.

Since this ride has encountered a great success, we have developed a wider range of Spinning Coasters, adapted to every site configuration, size, or every budget. Random spinning motion creates a new experience everytime, which keep visitors riding again and again !

The great family of Spinning Coasters covers park and mobile versions, each available in Junior, Compact, Classic, Stall Turn / Power versions.

SC Junior

The Junior Spinning Coaster is particularly adapted to smaller places or budgets.

The layout and cars are designed to welcome small children, starting at 95 cm.

This park version was made for *Le jardin d'acclimatation* Paris, France. More than 3 million visitors have been spinning around.

Flume Ride

**Our portfolio has the Flume Ride matching
your needs !**

Since 1976, Reverchon has been developing
different versions of this ride famous
worldwide.

**Except the XL version, the Flume Ride comes
in park and mobile versions.**

Flume *MiniFlume*

The mini Flume designed by Reverchon is a world premiere in its shape and size.

Designed to welcome very small children. Boats may carry three children or one adult and two children.

An original layout of the mini flume can be designed with a given idea of track length and dimension.

Capacity	400 pph
Max Speed	15 km/h
Length	20m
Width	18m
Height	3m
Track length	120m
N°of cars	6
Power	12 Kw

Flume Classic

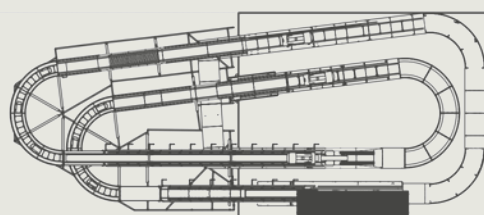

The Standard Flume Ride is a real classic !

With over a hundred (70 mobile, 30 stationary) Flume rides in operation, this attraction will delight the whole family.

Available in both permanent and portable versions, with a concrete lake or detachable for greater versatility, this attraction can be adapted to all areas with boats especially themed according to your wishes.

Capacity	1000 pph
Max Speed	50 km/h
Length	42 m
Width	19 m
Height	12 m
Track length	220 m
N°of cars	8
Power	85 Kw

Flume *XL*

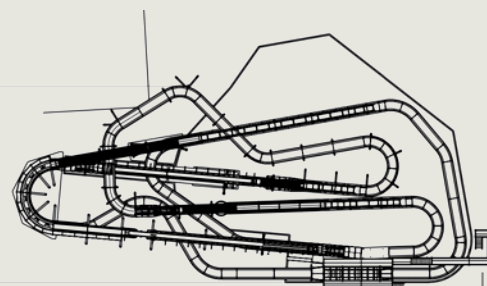

The Flume layout and design can be adapted to every budget or need.

This Custom XL Flume Ride has been made for « Liliputhbahn », Austria.

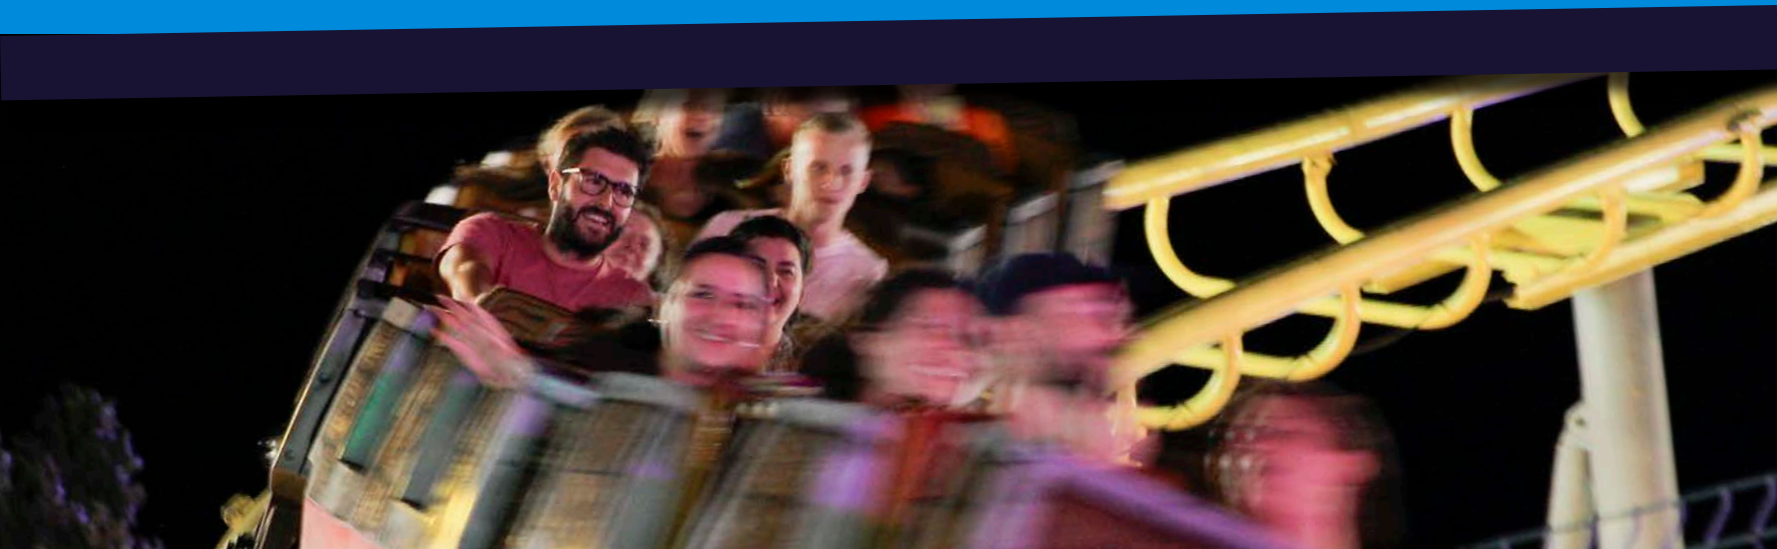

Aqua Gaudi, Prater Vienna, features 3 levels of track and 3 chutes.

Max Speed	50 Km/h
Length	75 m
Width	35 m
Height	16 m
Track length	420 m
N°of cars	14
Power	150 Kw

Family Coaster

Reverchon is modernizing its first roller coaster model !

The Roller Coaster is becoming the Family Coaster.

With a customizable and tailor- made layout, this attraction is perfectly suitable for the whole family.

Its smooth and compact layout has a reduced footprint.
The track and theme of our Family Coaster are adaptable to any location, be it indoor or outdoor.

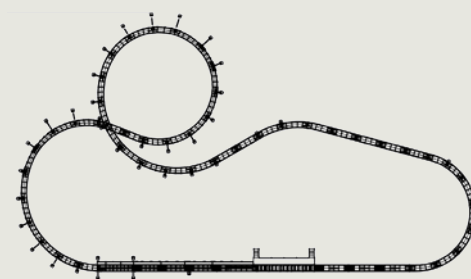

Family Coaster *Classic*

Capacity	650 pph
Max Speed	XX
Length	75 m
Width	30 m
Height	7 to 12m
Track length	250 to 450 m
N°of train	1
Power	30 to 50 Kw

Raft Ride

4 passengers by boat experience a wild river wet ride !

Our mobile version is a truly exciting family ride.

We can provide any type of custom layout for park versions !

Raft Spinning

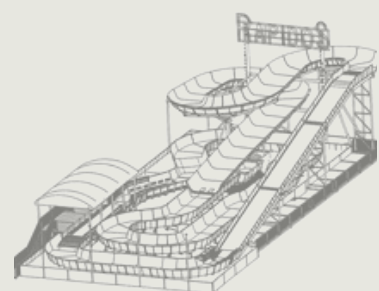

The Spinning Raft is a classic water ride.

Seated in inflatable round boats that provide a feeling of lightness, you will first slide down the fiberglass channel while spinning on yourself. Then, the wild river part will take you into raging waters.

Only the bravest will dare to get drenched by the final splashdown.

Refresh yourself !

Capacity	800 pph
Max Speed	1,5 m/s
Length	42 m
Width	20 m
Height	11 m
Track length	220 m
N° of cars	10
Power	115 Kw

Gliding Coaster

**Passengers take off for an intense
suspended coaster ride, combining speed,
height and a unique gliding sensation!**

Designed for thrill seekers, the Gliding Coaster
can be adapted with custom layouts and
theming for park versions.

Gliding Coaster

The Gliding Coaster is one of our most thrilling coaster experiences.

With suspended vehicles and a dynamic layout, riders enjoy the sensation of flying through sharp curves, drops and fast-paced transitions.
